OBJECTIVE

Aspiring Computer Science and Engineering student with a strong academic foundation. Seeking an internship opportunity to apply my skills in programming and problem-solving. Eager to learn from industry professionals and contribute to real-world projects. Aiming to leverage my passion for technology and problem-solving in a dynamic and innovative environment.

EDUCATION

Bachelor of Technology, CMR Technical Campus — 2022 - 2026
Computer Science and Engineering

Intermediate, Telangana Social Welfare Residential College — 2020 - 2022

Cyberage Pupils High School — 2019 – 2020

SKILLS

Technical Skills	Java, C, C++, MySQL, HTML, Javascript, PHP
Soft Skills	Communication skills, time management, presentation skills, teamwork, leadership

PROJECTS

Generating Synthetic images from text using RNN & CNN: Built a deep learning model to generate images from text using RNN and CNN architectures with adversarial training, enabling text-to-image synthesis from captioned datasets.

Chatbot app: A chatbot app using Node.js is a conversational application built on JavaScript runtime that handles real-time interactions between users and systems. It can integrate with platforms to provide automated responses, support, or personalized services.

CERTIFICATES

- IIT Bombay Spoken tutorial Certificate for the Completion of HTML Training
- Certificate of AI-ML Virtual Internship, Google for Developers (April-June 2024)
- Certificate of Completion, Data Analytics and Visualization Job Simulation, Accenture (March-April 2024)
- Certificate of Ai-Foundation course, Hexart.in
- Certificate of Ai-Advanced course, Hexart.in
